

Sustainability Policy

Our commitment

JHCPB is committed to integrating economic growth, environmental resilience, and social progress as balanced priorities into decision-making at every level of the business and in projects, with the ambition to create long-term value.

Our approach

JHCPB will undertake its business in a manner that maximises positive community impact. We are adopting a resilient and enduring strategic approach to meet and mitigate the existing and emerging challenges for society and our infrastructure environment. JHCPB acknowledges that sustainability enables long term financial resilience.

Sustainability Policy in practice

- Create a sense of place for communities, by making a positive and meaningful difference to the health and well-being of the community by genuinely engaging with the community and stakeholders
- Work closely with our customers to achieve optimal and resilient outcomes for users and society
- Decision making to integrate economic, social, environmental and governance aspects, and seek to achieve positive outcomes in each
- Minimise whole of life asset impact by future proofing our assets and responding to climate change
- Facilitate a shift from the practice of mitigating environmental impacts towards enhancing the environment
- Enhance workforce health and wellbeing, inclusion and diversity, and skills and training through professional development and an increased ability to deliver sustainable outcomes
- Source sustainably and ethically, including prioritising local industry participation, social procurement initiatives and a commitment to avoiding modern slavery
- Encourage innovation amongst our delivery teams and supply chain to achieve sustainable outcomes
- Manage all activities ethically, measuring and reporting the sustainability performance of the project
- Govern for sustainability by implementing project systems and processes to ensure the effective and efficient delivery and operation of the project
- Support the UN Sustainable Development Goals.
